

# Code of Ethics for Practitioners of Galactic Astrology Quantum Soul Guidance

## Introduction & Intention

The purpose of this document is to outline a shared set of values that guide the work of Certified Practitioners of the Galactic Astrology method – Quantum Soul Guidance (QSG). These values reflect the foundational spirit of this modality: one of reverence, empowerment, and soul-aligned service.

This Code is not a rigid rulebook, but a living expression of collective intent, offered as a compass for ethical, heart-centered practice. All certified practitioners are invited to align with these principles to the best of their ability, recognising that we are each on our own evolutionary path.

Together, we aim to support one another and our clients with humility, integrity, and care as we explore the vast, multifaceted nature of the soul and its cosmic journey.

May this document serve as a reminder that we are part of a greater community of awakening souls — each contributing to a more conscious, compassionate, and connected humanity.

## 1. The Chart as a Quantum Map

We recognise the birth chart as a holographic, fractal, multidimensional map — a quantum interface into one's soul history, purpose, gifts, and evolutionary journey. Its living nature unfolds uniquely across time, transits, and expanding consciousness.

We approach each chart with awe and humility, never reducing a soul to labels or fixed definitions.

## 2. Co-Creation over Control

We understand that a chart delineating is a co-creative process between practitioner and client. We offer insight and perspective — not prescriptions or absolutes. It is up to the client to feel, integrate, and apply what resonates with their journey.

### **3. Divine Synchronicity and Humble Knowing**

We trust that each session is divinely timed. We do not pretend to know all. We honor the mystery and allow what is most relevant for the client's evolution to emerge organically.

### **4. Timely Relevance over Information Overload**

While the chart holds infinite depth, we focus on what is most relevant and helpful at the time of delivering the reading. We believe each layer of insight becomes activated in divine time. Our role is to express what is currently active to best support the client's soul evolutionary journey unfolding.

### **5. Spiritual Grounding, Not Escapism**

We do not use Galactic Astrology to glorify star origins or perpetuate escapist narratives. Instead, we support the client in deepening their relationship with Self and Source — strengthening their inner trust, grounded presence, and divine connection to Earth and Cosmos.

### **6. Empowering, Not Polarizing**

We acknowledge the presence of polarity, galactic history, and trauma — yet we choose not to dwell in fear, drama, or division. We guide clients toward soul-centered empowerment, remembering their capacity to embody love, clarity, and sovereignty.

### **7. Integrity in Expression and Teaching**

As we deepen our understanding of this modality through dedicated practice, we are guided to expand and share it with integrity — supporting the awakening of consciousness in ways that feel aligned with our soul's highest calling.

We avoid exaggeration, spiritual superiority, or making unfounded claims.

### **8. Commitment to Evolution**

We see ourselves as eternal students of universal design. We commit to ongoing personal healing, spiritual refinement, and ethical discernment.

We understand that the clarity of our guidance depends on the clarity of our own vessel.

## **9. Confidentiality & Boundaries**

We uphold the confidentiality of all client interactions and maintain clear energetic and professional boundaries. We honor the sacred trust placed in us and never foster dependency or assume authority over another's path.

## **10. Informed Consent & Scope of Practice**

We ensure that clients understand the nature of our sessions. Galactic Astrology is a spiritual and metaphysical modality and is not a substitute for licensed medical, psychological, or legal guidance. We encourage clients to use discernment and always trust their inner wisdom.

## **11. Inclusivity & Cultural Sensitivity**

We honor the diverse backgrounds, beliefs, and identities of our clients. We communicate with compassion, awareness, and humility — recognising our own biases and ensuring that every client feels seen, heard, and respected.

### **Our Shared Intention**

At the heart of this work is our desire to activate, inspire, and empower the soul of the client.

After a session, we hope they feel:

- Grounded and uplifted
- Heart- and soul-centered
- More connected to divine intelligence
- Confident in their uniqueness
- Ready to embody more of their wholeness

We do not aim to define people by their pain but to reflect their divine potential — offering them a clear, compassionate mirror as they walk their sacred path.

This Code of Ethics is a living document.

As we evolve, so too will these intentions — always rooted in love, sovereignty, inclusivity, and soul-aligned service.
